1. LEGISLATIVE BACKGROUND

1.1. The Integrated Development Plan

Section 35 (1) (a) of the Local Government: Municipal Systems Act 32 of 2000 (MSA) states that the IDP is the principal strategic planning instrument, which guides and informs all planning and development, and all decisions with regard to planning, management and development in a municipal area.

As stipulated in Section 25 of the MSA, an IDP adopted by a municipal council must:

- Link, integrate and coordinate plans and take into account proposals for the development of the municipality.
- Align the resources and capacity of the municipality with the implementation of the plan;
- Form the policy framework and general basis on which annual budgets must be based;
- Complies with the provisions of the MSA, with the particular reference to Chapter 5; and
- Be compatible with national and provincial plans and planning requirements binding on the municipality in terms of legislation.

1.2. Adoption of the Municipal Process Plan

In terms of Section 28 of the Local Government: Municipal Systems Act, 32 of 2000:

- (1) each municipality Council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan;
- (2) the municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process;
- (3) a municipality must give notice to the local community of particulars of the process it intends to follow.

1.3. Process to be followed

In terms of Section 29 (1) of the Local Government: Municipal Systems Act, 32 of 2000, the process to be followed by a municipality to draft its IDP, including its consideration and adoption of the draft plan, must:-

- (a) be in accordance with a predetermined programme specifying time-frames for the different steps;
- (b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for:-
 - (i) the local community to be consulted on its development needs and priorities;
 - (ii) the local community to participate in the drafting of the IDP; and
 - (iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the IDP;
- (c) provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and
- (d) Be consistent with any other matters that may be prescribed by regulation

1.4. Management of the drafting process

In terms of Section 30 of the Local Government: Municipal Systems Act, 32 of 2000, the Executive Committee of the municipality must, in accordance with section 29:-

- (a) manage the drafting of the municipality's IDP;
- (b) assign responsibilities in this regard to the Municipal Manager; and
- (c) submit the draft plan to the Municipal Council for adoption by the Council.

Moreover, section 25 (1) (a) of the MSA states that an IDP adopted by the Municipality must be compatible with national and provincial development plans and planning requirements binding on the municipality. Thus the following plans and issues must also be considered when drafting the municipal IDP:

- Alignment with National and Provincial frameworks and plans
- Review of the previous years plans and lessons learnt
- Reviewed sector plans;

 - (ii) a statement that the process has been complied with, together with any explanations that may be necessary to amplify the statement;

4.3. DRAFTING AND ADOPTION OF MUNICIPAL BUDGET

The drafting of the municipal budget is regulated in terms of the Local Government: Municipal Finance Management Act of 2003 (MFMA).

Section 21(1) of the MFMA states that the Mayor of a municipality must:

- (a) Co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible.

- (b) At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for:-
- (i) the preparation, tabling and approval of the annual budget;

In order for the municipal council to adopt the budget of the municipality, the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year in terms of Section 16 (2) of the MFMA, which annual budget must be approved by the Council, in terms of Section 16 (1) of the same Act, before the start of that financial year.

4.4. IMPLEMENTATION MANAGEMENT & MONITORING

Chapter 6 of the MSA requires municipalities to develop and implement performance management systems. A municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role-players. A performance management system must be adopted before or at the same time as the commencement by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan. The system further provides the municipality with a mechanism of early warning for under-performance and promotes accountability and good corporate governance.

In order to implement the identified performance objectives and targets through the budget, S53 of the MFMA requires that the Mayor approves the municipality's Service Delivery and Budget Implementation Plan (SDBIP) within 28 days after the approval of the budget. The implementation of the SDBIP must be linked to the performance agreement that must be concluded in terms of the Municipal Manager and managers reporting to him, in terms of S57 of the MSA. In order to continually review municipal performance,

In terms of the Local Government: Municipal Planning and Performance Management Regulations of 2001 a municipality must, after consultation with the local community, develop and implement mechanisms, systems and processes for the monitoring, measurement and review of performance in respect of the key performance indicators and performance targets set by it. The mechanisms, systems and processes for monitoring and must:

- provide for reporting to the municipal council at least twice a year;
- be designed in a manner that enables the municipality to detect early indications of under-performance; and
- provide for corrective measures where under-performance has been identified.

A municipality must develop and implement mechanisms, systems and processes for auditing the results of performance measurements as part of its internal auditing processes. In order to fully execute the function of auditing performance, S14 (2) (a) of the Regulations require that a municipality must annually appoint and budget for a performance audit committee.

Any proposal for amending a municipality's Integrated Development Plan must be aligned with the framework adopted in terms of S27 of the MSA.

In terms of the regulations, no amendment to a municipality's IDP may be adopted by the municipal Council unless:

5. MECHANISMS AND PROCEDURES FOR PUBLIC PARTICIPATION

One of the main features about IDP and Budget Processes is the involvement of community and stakeholder organizations in the process. This ensures that the IDP addresses the real issues that are being experienced by the citizens. Both the Constitution of the Republic of South Africa, 1996 and the Municipal Systems Act of 2000 stipulate that one of the objectives of municipalities is ~~to~~ encourage the involvement of communities and community organizations in the matters of local government. The White Paper on Local Government also put emphasis on public participation.

Through the Municipal Systems Act, participation in the decision-making processes of the municipality, participation of communities, residents and ratepayers is determined to be a right. The IDP is, therefore, also emphasized as a special field of public participation.

It is therefore evident that public participation should be promoted in order to achieve, *inter alia*, the following objectives:

- Consult with the community on their developmental challenges
- Form basis for people-centred governance and bottom-up planning process
- Improve the relationship between council and the communities and thereby improve political accountability and transparency
- Empower communities through information dissemination/assimilation
- Establish the community feedback programme, which allows local leaders the opportunity to interact with communities on issues of service delivery.
- Provide communities with a platform to influence the developmental trajectory of municipalities and government in general
- Provides the municipality with a project/programme evaluation and implementation monitoring feedback mechanism

5.1. PARTICIPATION MECHANISM

Provisions of MSA Chapter 4 Section 17 provide for mechanisms for participation:

- IDP Rep Forum to verify and add data;
- District Municipality's Rep Forum to ensure that local priorities are adequately reflected on the District's IDP;
- Use Ward Councillors to call meetings to keep communities informed on IDP progress (including Ward Committees and CDWs);
- Publish annual reports on municipal progress;

- Advertise on local newspapers and community radios on the progress;

- Making use of municipal notice boards; municipal website and municipal newsletter.

5.2. APPROPRIATE LANGUAGE USE

English will be used as a medium language; however, in community meetings languages that are spoken in that community will also be used.

5.3. APPROPRIATE VENUES AND TRANSPORT

- Officials will be responsible for arranging venues and transport for all wards;
- Transport will be arranged for Traditional Leaders, Designated Groups and Ward Committees;
- ELM will be responsible for the costs of these meetings
- ELM will prepare a budget outline for IDP & Budget meetings

5.4. INVOLVEMENT OF TRADITIONAL LEADERSHIP

Section 81 of the Local Government: Municipal Structures Act states that traditional authorities may participate in council matters through their leaders and those traditional leaders must be allowed to attend and participate in any meeting of the council. The act further stipulates that the Council should give traditional authorities a chance to express their views if the matter in question directly affects the area of a traditional authority. It is therefore of vital importance that they continue to contribute in enhancing community participation in council matters and in government at large.

5.5. INVOLVEMENT OF WARD COMMITTEES AND CDWS

Ward committees are key in this process as espoused both in the Municipal Structures Act and the MSA. Ward committees represent the development aspirations and needs of the wards they represent and also form an information assimilation/dissemination mechanism between a municipal council and the community. The ward committees are key in the development, implementation, monitoring and evaluation of municipal performance on service delivery as espoused in the municipal IDPs.

Ward committees as one formal element of public representation in government affairs, in terms of the Structures Act of 1998, should be established in each ward. This will deepen the involvement of local communities in local governance processes such as Integrated Development Planning (IDP), the budget, performance management and service delivery. This applies in respect of implementation, monitoring and evaluation as well as planning. Thus, ward committee members and ward councillors should play a key role in mobilising the communities as well as in the identification of the developmental matters concerning the wards they are representing in the municipalities.

6. ALIGNMENT BETWEEN THE DISTRICT AND LOCAL MUNICIPALITIES

Alignment is the instrument that synthesises and integrates the top-down and the bottom-up planning process between different spheres of government. Not only is alignment between the District and the Local Municipalities important, but also between the Local Municipalities within the jurisdiction of the District Municipality. The alignment procedures and mechanisms should be incorporated in the process plans of the Municipalities, while the responsibility for alignment rests with the District Municipalities.

The Assistant Manager: IDP/PMS of the municipality is responsible for ensuring smooth coordination of local municipal IDP reviews and their alignment with the district IDP compilation through the use of workshops and

bilateral discussions with affected sector departments or municipalities. The Inter-Governmental Forum will also be used to ensure that beneficial alignment of programmes and projects occur.

7. ROLES AND RESPONSIBILITIES BETWEEN THE THREE SPHERES OF GOVERNMENT

Table D overleaf summarizes the distribution of roles and responsibilities between the spheres of government. Roles for the District and the role for local municipalities are also outlined.

It will be critical that the duties between council, administration and communities are clearly outlined. The summary of the roles and responsibilities of the discussed external and internal role players is depicted in table E.

8. ORGANIZATIONAL ARRANGEMENTS

The IDP preparation process requires an extensive consultation and participation of communities, all roleplayers and key stakeholders in order to achieve shared understanding of the municipal development trajectory and alignment. Although municipalities are expected to establish participation structures, it will however be critical to consider utilising existing arrangements, and adapt them if necessary, and avoid duplication of mechanisms. Table F presents the institutional arrangements focusing on a structure, composition and terms of reference aspects.
